Our Mission

The National Association of Catholic Nurses, U.S.A. gives nurses of different backgrounds, but with the same Roman Catholic values, the opportunity to promote moral principles within the Catholic context in nursing and stimulate desire for professional development. This approach to Roman Catholic doctrine focuses on educational programs, spiritual nourishment, patient advocacy, and integration of faith and health. As we continue to share our faith and values with each other, and with other healthcare providers, we simultaneously reach outward to the larger Church and also our communities, as we offer support to those in need.
