**2001 – MidSouth Area Association of Catholic Nurses (MSAACN)** – In February 2001, Alma Abuelouf, Director of Community Health Ministry, invited Mary Ann Capocaccia, Janet Hart and Mary Beth Trouy to explore the possibility of forming a local council of National Association of Catholic Nurses, a nation-wide organization which unites all Catholic nurses as well as associated health care professionals. Having been enriched by their involvement many years ago in the Nurses' Association at St. Joseph Hospital, the group agreed to invite all Catholic nurses in the Diocese of Memphis to an informational meeting to determine the level of interest in such an organization. In the fall of 2001, approximately forty nurses attended the meeting. Subsequently, a task force was formed to establish the name of the organization, mission, goals, by-laws, membership and activities.

The Mid-South Area Association of Catholic Nurses (MSAACN) was established in April 2002. The mission of the MSAACN is to give nurses of different backgrounds, but with shared Roman Catholic values, the opportunity to promote moral principles among nurses within the context of the Catholic Church, and to stimulate desire for further development by offering opportunities for spiritual growth, nourishment through education/formation programs, patient advocacy and integration of faith and health.

The by-laws, the logo which was designed by three members, and the official MSAACN prayer were all accepted by the members during the first MSAACN meeting held at the Catholic Center in June 2002. The group also voted on St. Camillus as the Patron Saint for the MSAACN. Officers were also elected. In order to plan the activities, a survey was sent to all members to determine the needs and areas of interest.

Mid-South Area Association of Catholic Nurses in the Diocese of Memphis is a program under the auspices of the Office of Community Health Ministry within the Diocesan Department of Pastoral Life Ministries.

1970 – 1993 – [Local Councils continued to flourish in Albany, New York; Chicago, Illinois; Memphis, Tennessee and other locations in the United States.](#)

**1969 – February 1970 – Mary Anita McHugh, 3rd President, NCCN, USA**

- Those Diocesan Council that were doing well were encouraged to continue their good work.
- February 1970 – Business ceased.
- December 1969 – Membership given the sad news that it was voted to disband NCCN, USA
- October 1969 – Membership in the Council grew to an all-time high in the early year from its 58 charter members to 22,000 but dropped to 8,500 by October 1969 — it also went from 112 Diocesan Councils to 80.
- Decreasing membership was thought to be caused by a dues increase, differences in perspectives during these societal times, and a lack of leadership in many of the councils leading to disarray.

**1964-1969 – Mary Delehanty, 2nd President, NCCN-USA**

**1960-1964-Marie Costello, 1st President, NCCN-USA** (National Council of Catholic Nurses). Marie was a professor of Nursing at DePaul University, Lake Forrest, Illinois. Chicago hosted the NCCN-USA convention April 30-May 2, 1964. Fr. John Trese was the Spiritual Director for NCCN.

Pre-1940 – There were known to be at least 42 local councils in 16 states. Following communications directly from Pope Pius XI, a meeting was held in Chicago in 1940 which led to the end of NFCN & the start of the new National Council of Catholic Nurses – USA (NCCN).

- Three separate groups existed in the city of Chicago. On July 26, 1954 Cardinal Stritch launched a new CCNAC group proclaiming, “I place the Catholic nurses at the foot of our Blessed Lady.” Marie Costello, was the 1st President of this combined Chicago council – CCNAC (Council of Catholic

Nurses Archdiocese of Chicago). The CCNAC celebrated its 60th anniversary on July 26, 2014.

- On May 20, 1946 under the auspices of Bishop Edmond F. Gibbons, the Albany Diocese Council of Catholic Nurses consisting of over 260 members from 3 area deaneries: Albany (133), Troy (135) and Amsterdam. Reverend James Prichard was appointed the first Spiritual Director. Mary Femia, CARN, graduate of St. Petr's Hospital School of Nursing served as President of the Council for 33 of the past 70 years of the council. In 1970 the council was renamed Albany Council of Catholic Nurses (ACCN). The ACCN celebrated its 70th anniversary on January 24, 2016.

1938 – G. Cardinal Pizzardo shared the report from the 3rd Congress and wrote each bishop expressing His Holiness Pope Pius XI's desire **“that ways and means be found to emphasize the necessity of bringing all Catholic nurses within the influence of Catholic Associations of Nurses”** and requested that **“In accordance with this wish of the Holy Father, it is most desirable, Your Excellency, that the Catholic nurses of the United States be gathered into one national association under the direction of the respective Ordinaries of the Hierarchy.”** With Reverend Father Garesche, S.J., who had given his time and energy to effect such an organization, realizing the good that would ensue if this most important work was carried out under the guidance of the Hierarchy but signifying his intention to retire from the movement, **“in keeping with the wish manifested in the words of His Holiness, that the Archbishops and Bishops should organize local associations of Catholic nurses according to the needs of their respective diocese, which in due time, under the guidance of the Hierarchy, might be united to create a National Federation of Catholic Nurses.”** This initiated what became the NCCN-USA and later the NACN-USA.

**“...The exercise of the profession of nurse is surely one of those which offer the greatest possibility for the apostolate, but we must not forget that the nurse, in the exercise of her profession, has to employ all sorts of technical means, and lives in a materialistic atmosphere, exposed to the danger of a limited interior piety only, dissociated from the profession and exterior practices enjoined by the Church. Furthermore, modern theories seek to penetrate the minds of Catholic nurses and to make them become unconsciously strong agents for the propagation of eugenics and neo-malthusianism. It is necessary, then, to protect them by means of Catholic Action, which has for one of its duties to sustain and fortify them in their professional and Christian formation.”**

(Reference p25 Conference Report – Excerpt from Pope Pius XI address).

1937 – 3rd International Congress of Catholic Nurses held in London – on page 25 of the report — the great desire of His Holiness [Pope Pius XI] was expressed: **“that ways and means be found to emphasize the necessity of bringing all Catholic nurses within the influence of Catholic Associations of Nurses.”**

1935 – 2nd International Congress of Catholic Nurses held in Rome as the beginning of a new united effort of Catholic nurses to organize themselves better in order to carry out, spiritually and scientifically, their apostolic work on behalf of the sick. **“After describing the important work of the Nurse, her lofty vocation and the preparation so necessary for the successful execution of her mission to the sick, His Holiness Pope Pius XI told the assembly that it was the duty of every Catholic nurse to belong to Catholic associations of nurses and to promote them in every way possible.”** (excerpt from G. Cardinal Pizzardo's letter to bishops).

1933 – In the United States, a new constitution & bylaws of a “national character” were adopted by ICGN & name changed to “National Federation of Catholic Nurses.” Headquarters moved to Chicago pre-1940.

1933 – 1st International Committee of Catholic Nurses (now CICIAMS), met in Lourdes, France.

1924 – International Catholic Guild of Nurses (ICGN) founded in June 1924, Milwaukee, Wisconsin. Spiritual Director, Fr. Edward J. Garesche, S.J.

1909 – Guild of St. Radegone for Nurses (for students & graduates of recognized schools of nursing) in Boston.
